Shaping the Future of Logistics Across Continents

3 | JIFEX - Aqaba 2026

Where Vision Meets Logistics Innovation

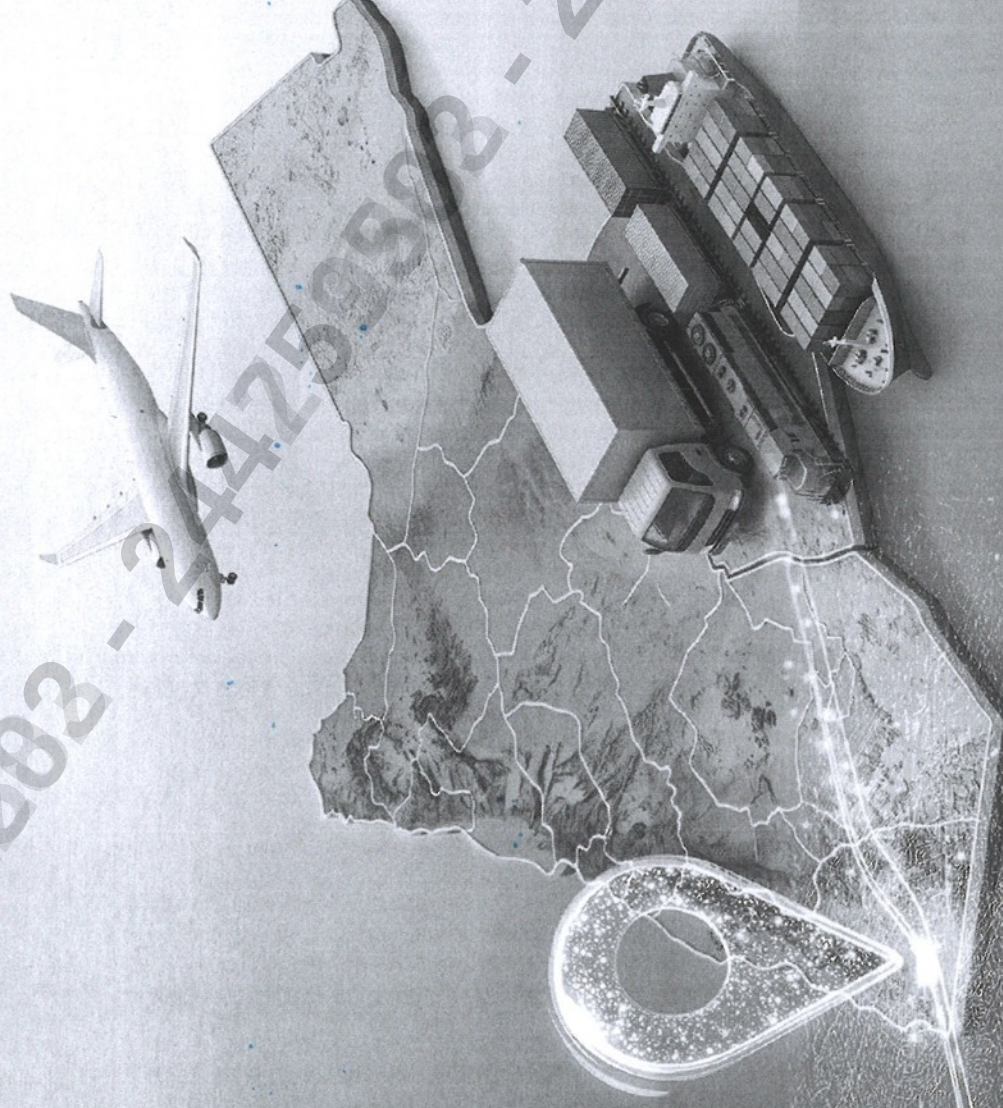

Back for its second edition, JIFEX 2026 unites senior executives, investors, decisionmakers, and industry leaders from over 20 countries on a premier international platform. By fostering collaboration, accelerating knowledge exchange, and driving innovation and investment, JIFEX is helping shape the future of logistics and supply chains across the region.

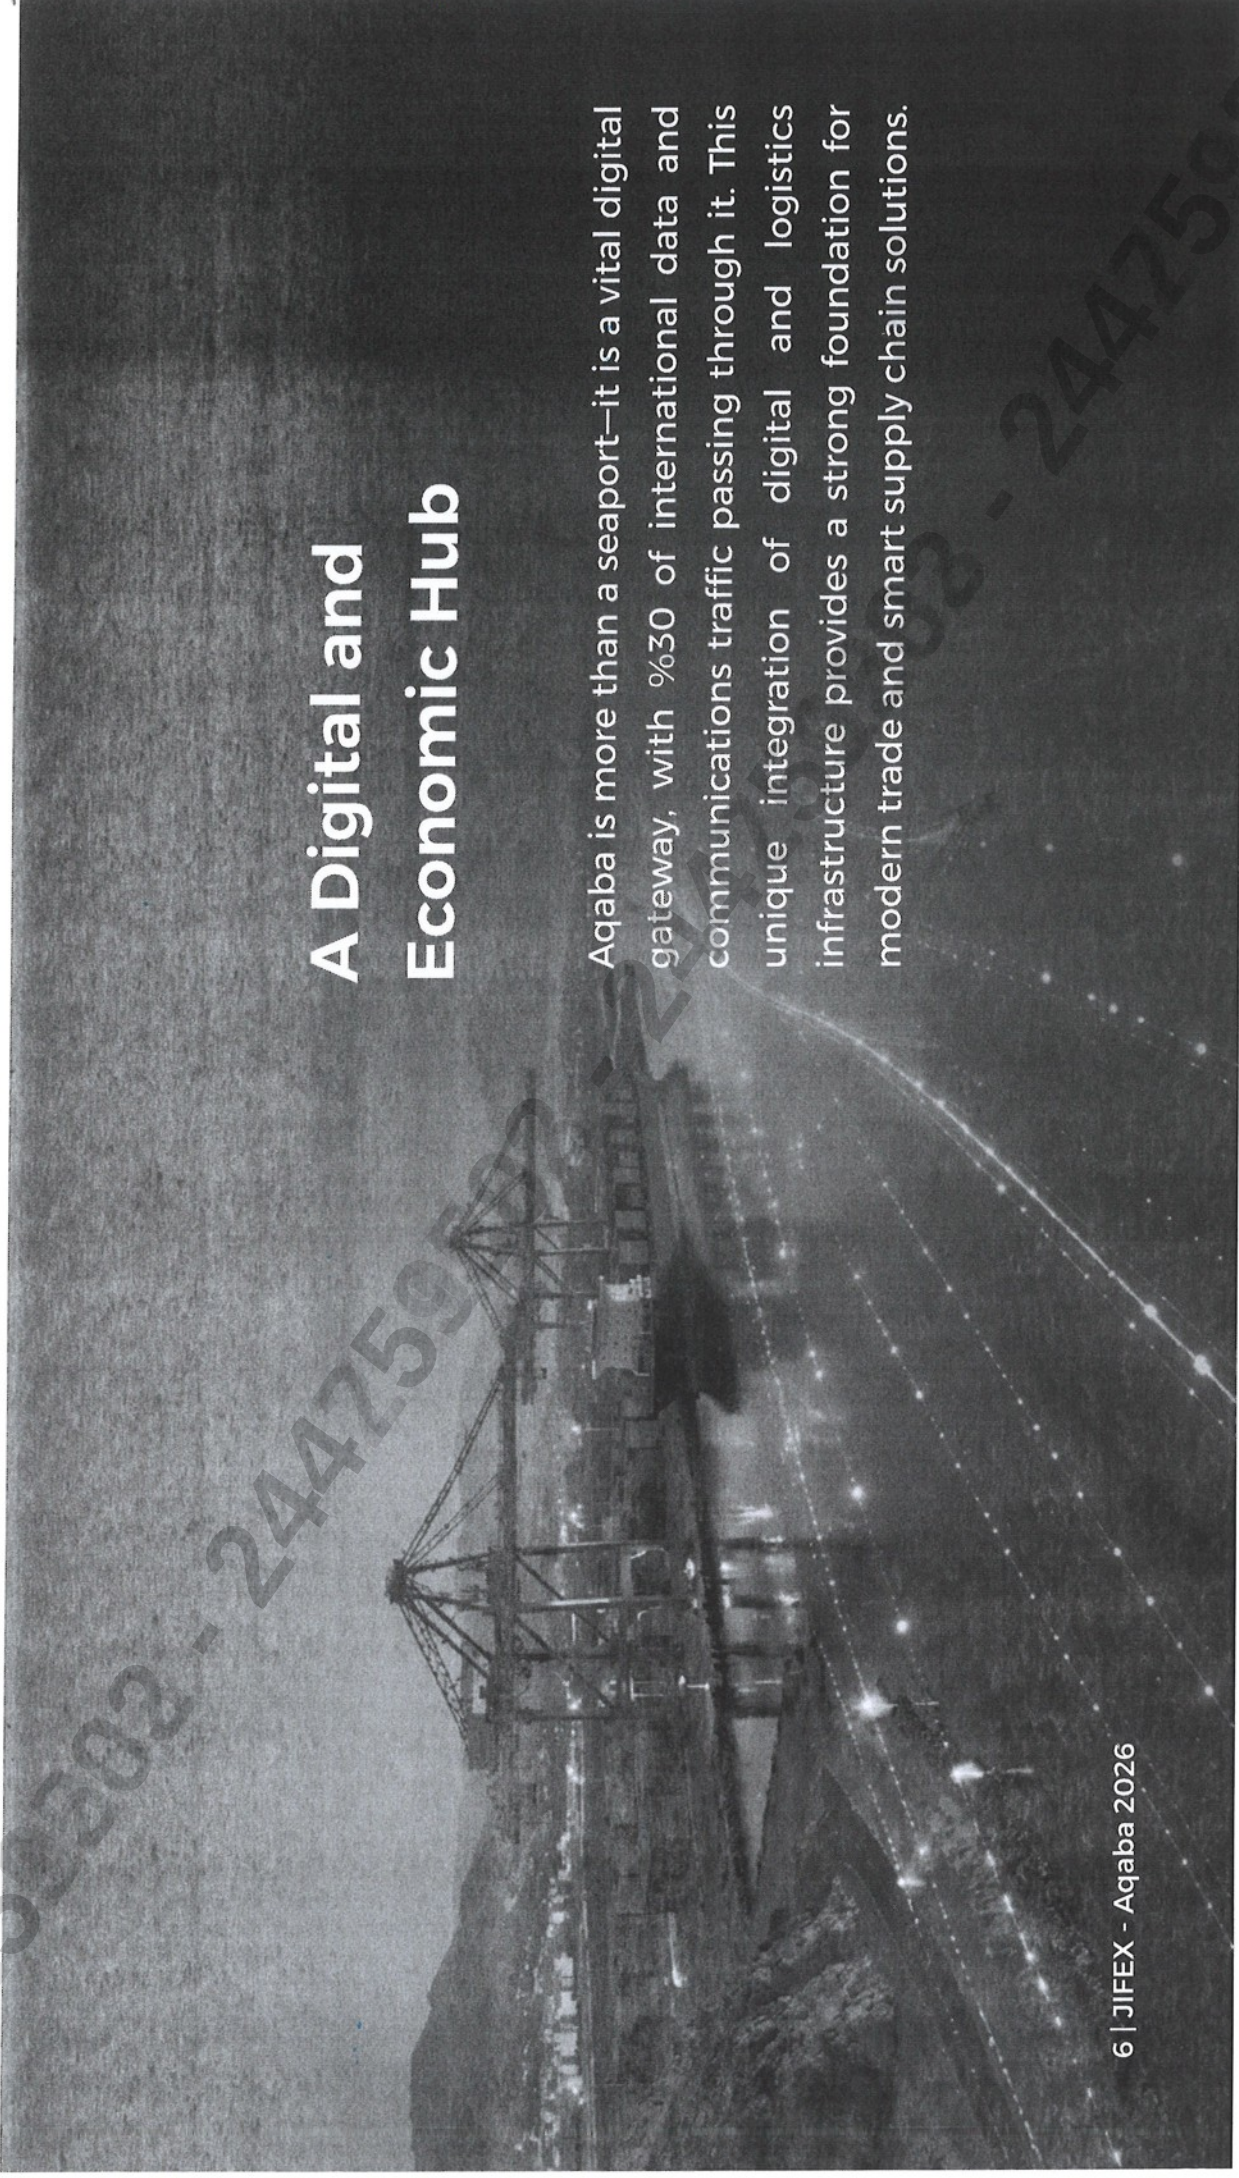

4 | JIFEX - Aqaba 2026

A Global Investment Hub

Over the past two decades, Aqaba has attracted more than USD 26 billion in investments, with over USD 2 billion allocated to the development of transformative logistics infrastructure projects. These investments have significantly enhanced the capacity of ports and airports, expanded warehousing and cargo-handling facilities, and strengthened multimodal transport networks, reinforcing Aqaba's position as a key driver of regional logistics growth.

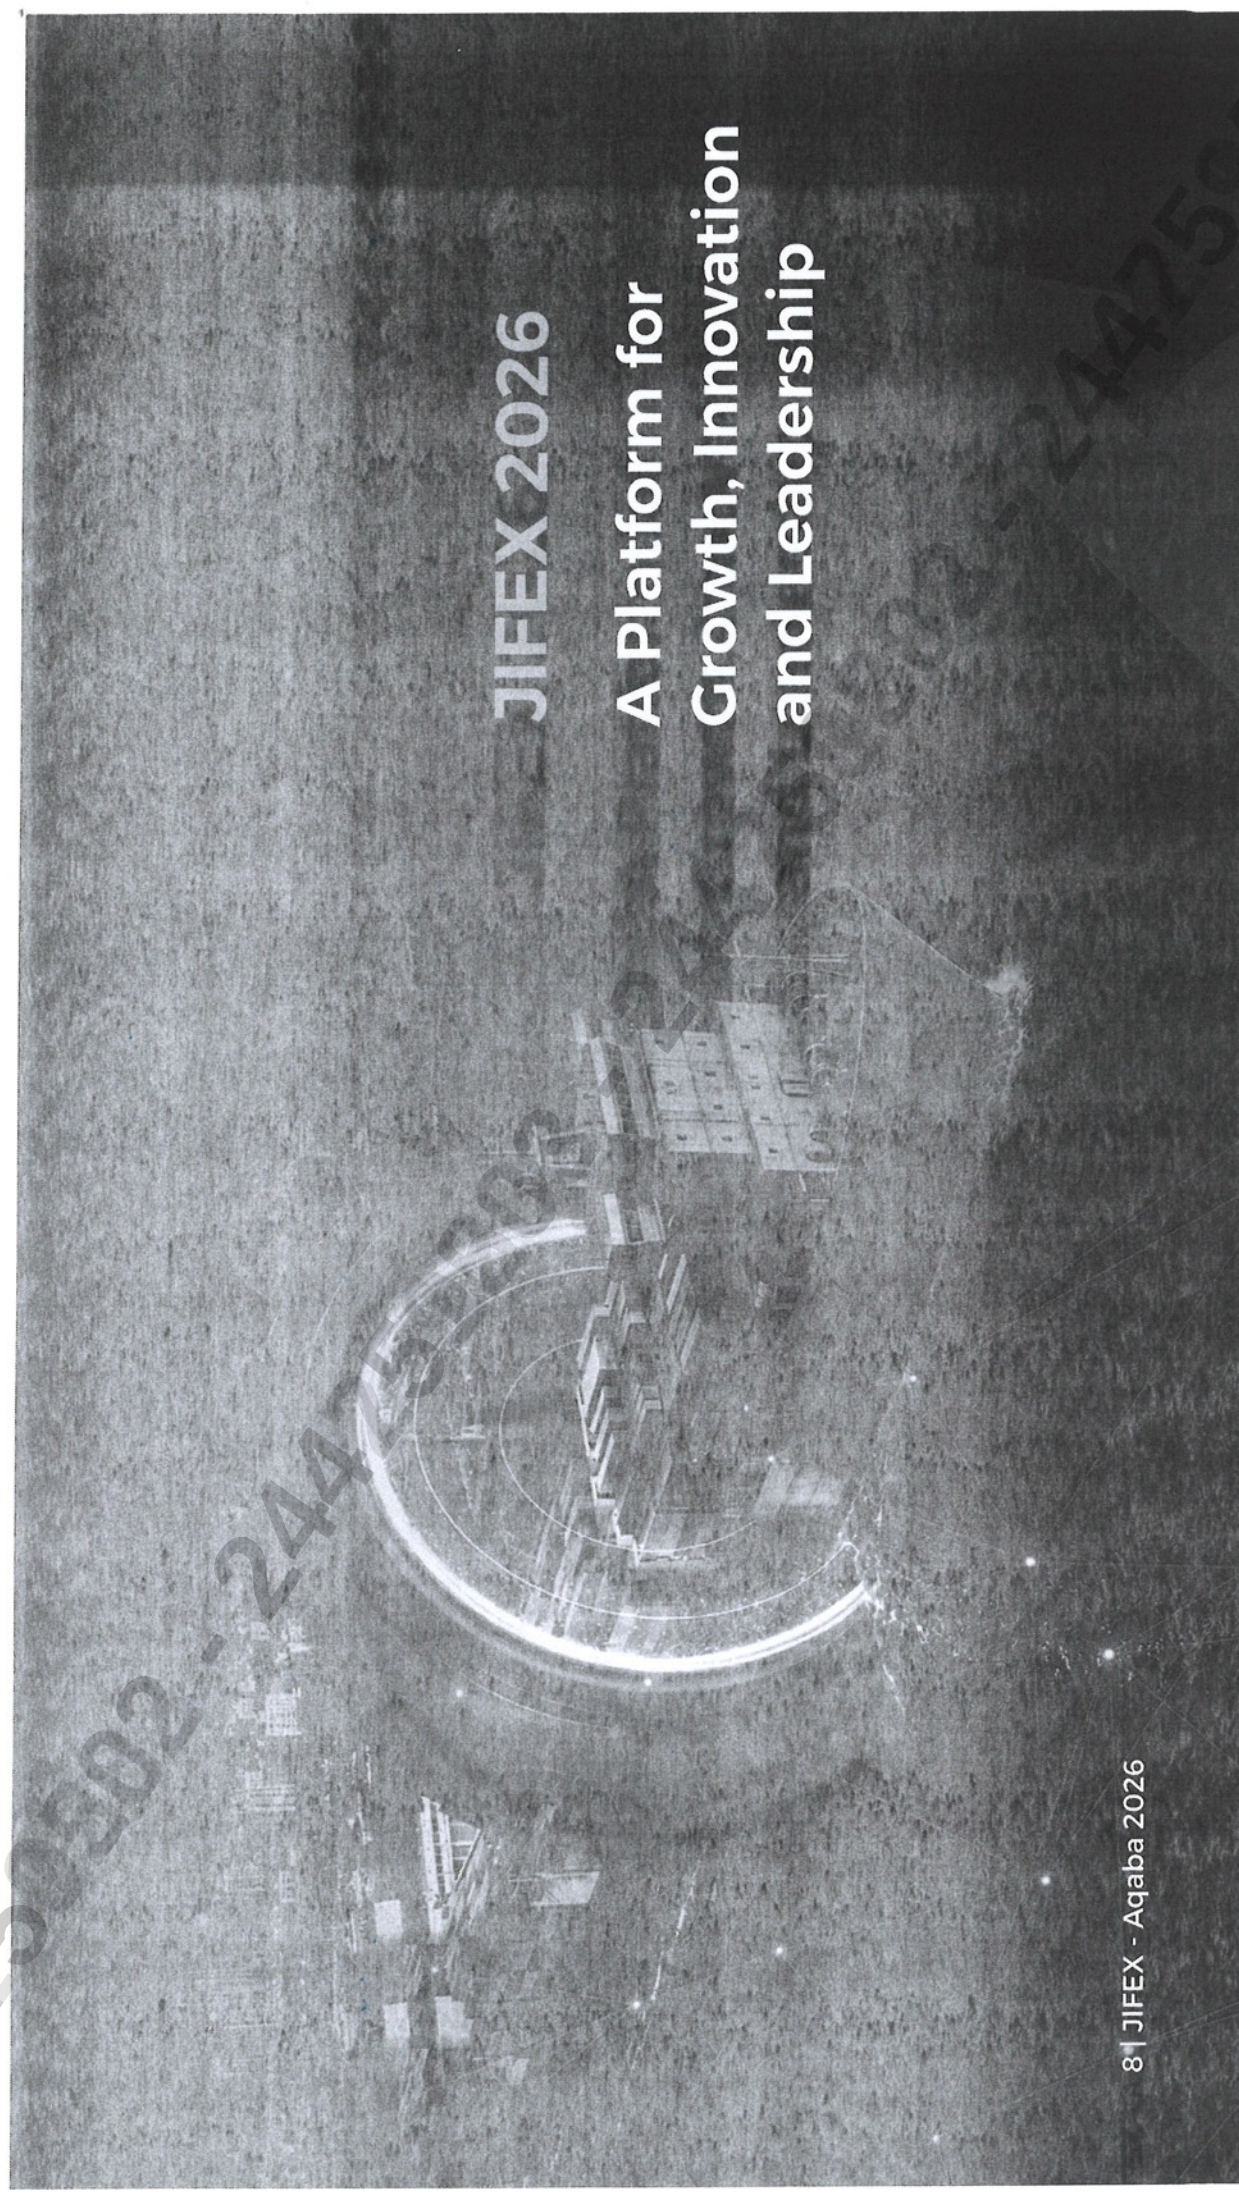

A Digital and Economic Hub

Aqaba is more than a seaport—it is a vital digital gateway, with %30 of international data and communications traffic passing through it. This unique integration of digital and logistics infrastructure provides a strong foundation for modern trade and smart supply chain solutions.

Opening Doors to Global Markets

Jordan offers investors and businesses strategic access to more than 1.5 billion consumers through an extensive network of free trade agreements with the United States, the European Union, the United Kingdom, Canada, and 17 Arab countries under the Greater Arab Free Trade Area (GAFTA). These partnerships facilitate the seamless movement of goods, positioning Aqaba as an ideal gateway to the markets of the Middle East, North Africa, Europe, and beyond.

An aerial night photograph of a city, likely Aqaba, featuring a large, brightly lit circular architectural structure in the foreground. The city lights and buildings are visible in the background under a dark sky.

JIFEX 2026

**A Platform for
Growth, Innovation
and Leadership**

JIFEX Aqaba 2026 – The International Exhibition and Conference for Freight, Customs Clearance, and Logistics Services

is Jordan's premier annual event dedicated to the development of logistics, freight, customs clearance, and supply chain sectors.

At JIFEX 2026, we aim to strengthen Jordan's position as a regional and global hub for logistics services and supply chains. The event provides a dynamic international platform that delivers tangible business results for:

- ✓ Building strong business networks.
- ✓ Accessing business and investment opportunities.
- ✓ Participating in discussions and industry dialogues that contribute to sector development.

- ✓ Marketing and promoting your brand.
- ✓ Exploring the latest innovations in the logistics industry.
- ✓ Strengthening your presence in the Jordanian and international markets.

Aqaba... Your Sustainable Strategic Gateway

Amid rising global disruptions, Aqaba is no longer a contingency option—it has become a strategic first choice, offering resilient supply chains, stability, security, expansion opportunities, and strong government support, positioning it as the region's leading logistics hub.

JIFEX 2026

Key Pillars Advancing,
the Freight, Customs Clearance
and Logistics Sectors

13 | JIFEX - Aqaba 2026

Aqaba: Jordan's Gateway to Trade, Investment, and Regional Connectivity

- The national vision to strengthen Aqaba's position as a regional maritime, logistics, and investment hub.
- National priorities for developing Aqaba's transport and logistics ecosystem.
- Integrating the roles of government entities and the private sector to enhance economic and trade competitiveness.
- The policies and incentives needed to attract investment and strengthen Jordan's position in regional supply chains.
- Prospects for regional and international cooperation in transport, trade, and investment.

The Future of Port Investment and Port Competitiveness: Towards Efficient Ports and Stronger Market Connectivity

- The future of investment in ports, terminals, and value-added port services.
- Enhancing operational efficiency and service quality to strengthen port competitiveness.
- Attracting shipping lines and maritime services while strengthening connectivity with regional and global markets.
- Developing the infrastructure, facilities, and services needed to support the growth of maritime and commercial activity.

Trade Disruptions and the Reshaping of Supply Chains: The Future of Maritime and Trade Corridors, Insurance, and Energy Security

- The impact of disruptions to regional and international maritime corridors on trade, shipping, and food security.
- Shifts in trade routes and alternative corridors across the Middle East.
- Shipping and marine insurance risks, and rising costs in a changing geopolitical environment.
- Supply chain continuity and risk management amid disruptions to maritime and trade corridors.
- The role of Aqaba and alternative corridors in supporting the continuity of trade flows.
- The impact of energy security and geopolitical developments on transport and trade.

Multimodal Transport and Logistics Corridors: Enhancing Connectivity and Facilitating Trade Through Aqaba

- Developing logistics corridors connecting Aqaba with Iraq, Syria, Saudi Arabia, and neighboring countries.
- Integrating maritime, road, rail, and air transport according to market needs and economic feasibility.
- The role of logistics hubs, dry ports, and industrial zones in supporting trade and transit flows.
- Developing and streamlining customs clearance, transit, and cross-border procedures.
- Enhancing coordination among customs authorities, ports, transport companies, and regulatory bodies.
- Reducing the time and cost of cargo movement and strengthening the competitiveness of regional trade corridors.

Sustainability in Transport and Logistics: The Green Transition, Energy Efficiency, and the Future of the Sector

- Reducing transport emissions and the impact of new environmental requirements on the shipping and logistics sector.
- Alternative fuels, clean energy, and the future of transport and port infrastructure.
- Improving energy efficiency and developing more sustainable transport and logistics operations.
- Investment opportunities in green transport, energy, and infrastructure projects.
- Balancing sustainability requirements with cost and competitiveness.

Digital Transformation in Transport and Logistics: Towards a More Integrated and Efficient Ecosystem

- Digitizing shipping, transport, and customs clearance procedures and streamlining operations.
- Integrating and exchanging data among ports, customs authorities, shipping lines, and service providers.
- The role of Port Community Systems and the National Single Window in improving the efficiency of trade flows.
- Using data and digital analytics for planning, performance optimization, and informed decision-making.
- Cybersecurity, data protection, and ensuring the continuity of digital services.
- Establishing a National Logistics Information Center to provide accurate and comprehensive data and statistics that support decision-making and the development of the sector.

Strategic Gateways in a Changing World: The Future of Trade, Energy, and Supply Chains

- A strategic outlook on major shifts in maritime and overland trade corridors.
- The future of global trade.
- Energy security.
- Insurance.
- Alternative trade corridors.
- The region's position in the new global logistics system.

Com Connectivity and Partnerships Opportunities

JIFEX

JIFEX works to strengthen connections among participants and create the ideal environment for deal-making and partnerships by providing fully equipped meeting rooms as part of the exhibition and conference activities.

Participants can schedule advance appointments to request meetings with partners, investors, or other relevant stakeholders, according to a pre-arranged meeting schedule managed by the conference organizers.

This environment enables B2B matchmaking opportunities and the creation of strategic partnerships in a direct and effective manner.

The goal is for every participant to leave JIFEX with tangible value: a broader network, new insights, and practical collaboration opportunities.

Agreements concluded between various parties will be showcased as success stories, with coverage and promotion during and after the exhibition and conference.

Networking activities will be held throughout the exhibition to provide the ideal atmosphere for communication and engagement.

Providing opportunities to explore the capabilities of young talents and the workforce in these fields.
