NEW PUBLICATION - CYBER SECURITY WORKBOOK FOR ON BOARD SHIP USE

Action required: *To circulate the attached flyer to your member shipping companies to make them aware of a new joint publication on cyber security.*

ICS has joined forces with BIMCO and Witherbys on a new publication, *Cyber Security Workbook for On Board Ship Use*, which is out now and available for purchase through Witherby Publishing and maritime booksellers25
This workbook is a practical, straightforward and easy to understand guide to support the Master and the ship's crew with cyber security risk management. Along with detailed guidance on all aspects of cyber security protection, defence and response, the book contains comprehensive checklists to assist with the day to day management of onboard cyber security. It will also benefit shipowners, ship managers, ports and their IT departments.

Resolution MSC.428(98) advises administrations to ensure that cyber risks are appropriately addressed in existing safety management systems (as defined in the ISM Code) no later than the first annual verification of the company's Document of Compliance after 1 January 2021.

Please contact me for any further information.
